

# Make a Fanoos lantern

1. Colour and decorate the lantern and handle.
2. Cut outer solid lines. Fold sheet on dotted line then cut solid lines on fold.
3. Form the paper into a tube then tape/glue the bottom and top overlaps.
4. Tape/glue the ends of the handle onto the inside of the lanterns top edge.

A large rectangular template for making a Fanoos lantern. The top-left corner features a scissors icon. The main body of the template is a large rectangle divided by a vertical dotted line down the center. There are ten horizontal solid lines spaced evenly across the rectangle, creating eleven equal-width sections. The bottom of the template is a separate, narrower horizontal strip. The word "Lantern" is printed in the bottom-left corner of the main rectangle, and the word "Handle" is printed in the bottom-left corner of the narrow strip.
