IN PARTNERSHIP WITH

Finding Treasures

Today you will be exploring some rare and fascinating objects from London's Natural History Museum. Use the questions below to guide your thinking as you marvel at the discoveries that have shaped our understanding of the natural world.

Choose an object that is unique and beautiful.
Describe what you find appealing about this object.
Does it remind you of anything else you have seen before?

Find an object that has led to a unique discovery.
Discuss why you think this object is important, and how it has changed humanity or our understanding of the natural world?

Finding Treasures

Choose an object that looks particularly interesting.
Use your observation skills to draw a detailed picture of it.
Write a sentence explaining what it is and label any important features.

If you could own one of these 'treasures', which one
would it be and why? Explain your thinking.
